

FORMATIVE ASSESSMENT

a process rather than a tool

Professional development of Teachers

by Mgr. Danka Sekerková

How can assessment support learning?

Do you use Placement tests to separate students according to the level?

A: YES

B: NO

How do you find Placement tests?

A: FAIR

B: NOT FAIR

C: IT DEPENDS

How can assessment support learning?

- ASSESSMENT: the Bridge Between **Teaching** and **Learning**
- Assessment **OF** and **FOR** Learning
- Formative Assessment (**FA**)
- **Strategies** of FA
 1. Learning Intentions and Criteria for Success
 2. Eliciting Evidence of Student Learning
 3. Providing Feedback
 4. Cooperative Learning
 5. Self-Assessment

ASSESSMENT: the Bridge Between Teaching and Learning

Teaching-Learning Trap

A:

“I work really hard

and at the end of the day I usually go home more tired than students.”

C: in between

B:

“Actually, I don’t teach much, **I just guide and facilitate the learning.**”

Teacher's job is...

- to transmit knowledge
- to facilitate learning
- to engineer **effective learning environment** for the students

- create students' engagement
- ensure that the learning is proceeding in the intended direction

through

assessment = bridge

Assessment OF and FOR learning

OF

Summative assessment

- after the learning has happened
- information about what the student is achieving **by giving a mark or a grade.**

FOR

Formative assessment

- a part of the continual learning process
- **specific feedback** on students' strengths/weaknesses and suggestions for improvement

The combination of both types of assessment
a powerful tool for helping the students' progress.

Formative Assessment (FA)

- first used in 1967 by **M. Scriven** and two years later by **B. Bloom**:

“formative evaluation” provides feedback and correctives at each stage in the teaching-learning process

- in 1998 **William and Black** identified 600 relevant studies on FA and in 2004 they conducted their own experiment:

the use of FA, in many cases, effectively doubled the speed of student learning

- key principles:
 1. **evidence** from the A serves rather than the A itself
 2. who is doing the A (**teacher, peer, learner**)
 3. **decision** about the next steps in instruction

Strategies of Formative Assessment

	Where the learner is going	Where the learner is right now	How to get there
Teacher	1. Clarifying and sharing Learning Intentions and Criteria for Success	2. Eliciting Evidence of student learning	3. Providing Feedback that moves learning forward
Peer	Understanding and sharing learning intentions and criteria for success	4. Activating learners as instructional resources for one another (Cooperative Learning)	
Learner	Understanding learning intentions and criteria for success	5. Activating learners as the owners of their own learning (Self-Assessment)

VIDEO AT THE CINEMA

Lee: So, what's on?
 Amy: The new Tom Lewis movie, *True Love*. It starts in ten minutes.
 Lee: No way! I want to see *ZooWorld*.
 Amy: I don't like fantasy films. They're boring.
 Lee: Oh, come on, please.
 Amy: Oh, OK.
 ...
 Lee: Can I have two tickets for *ZooWorld*, please?
 Tess: Sure, which screening?
 Lee: The 6.30.
 Tess: I'm sorry, it's sold out ... Oh, no, hold on! There are two seats.
 Lee: Great!
 Tess: But they're in the front row.
 Amy: Lee, I don't want to sit in the front row!
 Lee: OK ... I'd like two for *True Love* at 6.15, please.
 Tess: Row seven. Is that OK?
 Lee: Yes, thanks. How much is that?
 Tess: That's twelve fifty, please.
 Amy: Here you are.
 Tess: Thank you. Enjoy the film!
 Lee: Yeah, right.

No way! Come on, please! Hold on!

1.7 WRITING A personal introduction

I can write a personal introduction.

Lee Marshall
 Harlow Mill, near London, England
 alternative/lo-fi

About me
 My name is Lee Marshall and I'm fifteen. I'm English. I live with my parents and my sister, Ruby, in Harlow Mill, near London. I'm in Year 10 at Harlow Mill High School. My favourite subjects are Music, Art and English.
 I like books and movies but my big passion is music. My favourite band is Arcade Fire—they're from Canada and they're awesome. In my free time, I sing and play the guitar. I make music on my laptop every day and I sometimes write songs. Click on the media player to listen to them and tell me what you think!

Friends

1 CLASS VOTE Have you got a personal webpage like Facebook or Flickr?

2 In pairs, quickly look at Lee's webpage. Which sentence is not true?
 1 There is a photo of Lee on the webpage.
 2 You can listen to some of Lee's songs.
 3 You can look at Lee's photo gallery.
 4 There is some personal information about Lee.
 5 You can see some of Lee's friends on his page.

3 In pairs, read Lee's introduction. Tick (✓) the things he writes about.

- School
- Nationality
- Hobbies
- Best friend
- Name and age
- Family/hometown
- Personality
- Interests (books, music etc.)

4 Look at Lee's profile again. Say how you are similar to or different from Lee.
He's English but I come from Poland. He's got a sister and I've got a sister too.

5 Look at the Writing box. Complete the sentences to make them true for you. Look at Lee's text to help you.

Writing Time

6 Write a personal introduction for a webpage. Use the Writing box and Lee's text to help you.

Write about:

- 1 personal details
- 2 interests and hobbies
- 3 routines

1. Learning Intentions

1. Criteria for Success

Task-Specific vs. Generic?

- teachers can design a success criteria for **one specific task**
- **generic one** applies to a number of different assignments (CEFR, GSE, IELTS...)

Product-Focused vs. Processed-Focused?

- **process-focused guidelines (FA)** help students and bring them to the **product success (SA)**

Practical Techniques

- have students to co-construct success criteria e.g.:
 - ✓ use sample pieces of student work from the previous year
 - ✓ compare student's own work to exemplary student work

Examples in Practice

Learning intention:

to write an effective characterization

Product success criterion:

the readers will feel as if they know the character

Process success criteria:

include at least two of the following:

- the character's hobbies and interests
- the character's attitudes toward self and others
- examples of the character's extrovert or introvert personality
- examples of the character's likes and dislikes

- 5** Look at the Writing box. Complete the sentences to make them true for you. Look at Lee's text to help you.

Writing Time

- 6** Write a personal introduction for a webpage. Use the Writing box and Lee's text to help you.

Write about:

- 1 personal details
- 2 interests and hobbies
- 3 routines

2.
Eliciting
Evidence of
Student
Learning

Practical Techniques from individual students

- **Random Calling**
- **Interpretive Listening**

“What can I learn about students’ thinking by attending carefully to what they say?”

- **Question Shells**

- frame questions in ways that are more likely to reveal students’ thinking:

“**WHY** is _____ an example of _____?”

Original

Is „*As You Like It*“ a comedy

Reframed

Why is „*As You Like It*“ a comedy?

2. Eliciting Evidence of Student Learning

- use contrast in question and then ask students to explain
contrast:

“**Why** is and **not**?”

Original

Is “do” an irregular verb?

Reframed

Why is “do” an irregular
verb and “work” not?

- **Hot-Seat Questioning:**

student in a „hot-seat“ is asked
series of follow-up questions
to probe his/her deep knowledge
e.g. about present simple (form and use)

2. Eliciting Evidence of Student Learning

Practical Techniques – from the entire class

- **Hand Signals:** “thinking thumbs” (thumb up = yes, down = no, horizontal = don’t know)

- **ABCD Cards**

- **Mini Whiteboards:** mini dry erase whiteboards provides more flexibility, alternative – cards/paper graph/maps

- **Exit Passes:** questions which require longer responses such as:

„Why is Shakespeare one of the best English writers?”

3. Providing Feedback

The study by Ruth Butler on effectiveness of different kinds of feedback (Israel, 1988)

- 132 students in age of 18, four schools, twelve classes, 2-day period for feedback on their work
- 1st group was given scores
- 2nd group was given comments
- 3rd group was given both, scores and comments.

Effectiveness of feedback from the 1st lesson to 2nd lesson:

- 1st group – no progress
- 2nd group – 30% higher (on average)
- 3rd group – A: 50 % higher
B: less than 50 % higher
C: no progress at all

3. Providing Feedback

Other factors that affect the effectiveness of feedback

- **Praise:** no effect on achievement, students focus on their **egos** rather than their **academic work**
- **Timing:** feedback only functions formatively if the information can be used by the learner **to improve performance**
- **Scaffolding:** students given **minimum amount of support** learned more and retained more
- **Action Oriented:** saying what's wrong isn't enough, secret of effective feedback is to provide a **recipe for future action**

4. Cooperative Learning

Practical Techniques

- **C3B4ME** “See three before me”

Before a student is allowed to ask the teacher for help, s/he needs to seek the assistance of three other students.

- **Peer Evaluation of Homework**
- **Error Classification:** When students receive papers back with comments, they need to “classify” their errors.
- **End-of-Topic Questions/Summary**
- **If You’ve Learned It, Help Someone Who Hasn’t**

5. Self- Assessment

- involves the learner combining his/her **cognitive resources** with **the emotions** and actions to carry out the learning goals
- research shows that using this technique **had almost doubled the rate at which students were learning**

Metacognition – helping students recognize their cognitive resources

Motivation – helping students stay motivated to learn

1.4 I can ask and answer questions about habits and routines.

Speaking language practice

1.6 I can buy a ticket at the cinema.

How can teachers support Self-Assessment?

1. Share learning goals with students so they are able to monitor their own progress toward them.
2. Promote the belief that ability is incremental rather than fixed so they will be willing to devote energy to improvement.
3. Make it more difficult for students to compare themselves with other students in terms of achievement. One way to do this is to give constructive comments rather than grades.
4. Provide feedback that contains a recipe for future action rather than a review of past failures.
5. Use every opportunity to transfer executive control of the learning from the teacher to the students to support their development as autonomous learners.
6. A good news is: you are doing much of this already! This FA simply helps you make your current practice more intentional and effective.
